

Nonprofit Mergers, Dissolutions, and Asset Transactions

In addition to helping our clients create new entities, we provide legal support through the other major milestones in a nonprofit's lifecycle, such as mergers and dissolutions. We also advise nonprofits on legal issues in taking over (or being taken over by) another entity, acquiring the assets of another entity, or selling assets to another entity, where the other entity may be a for-profit business or another exempt organization.

AREAS OF FOCUS

- › Sales of assets and other asset transfers
- › Mergers
- › Dissolutions
- › Other significant transactions
